ANR and Spectro Cloud's Palette VerteX Now Awardable on Platform One Solutions Marketplace

MONTGOMERY, Ala. — Alaska Northstar Resources ([ANR](#)) announced today that its joint solution with [Spectro Cloud](#)'s Palette VerteX has been deemed awardable and is now officially available on the U.S. Department of Defense (DoD)'s [Platform One Solutions Marketplace](#).

This designation signifies that the solution has met the stringent requirements set by the DoD and is now accessible to federal agencies seeking advanced, secure, and scalable cloud-native infrastructure solutions.

"This recognition by the Department of Defense is a proud moment for our team. It reflects not only the strength of our partnership with Spectro Cloud but also our shared commitment to delivering secure, mission-critical solutions that truly make a difference," said ANR President Jan Johnson.

Palette VerteX is a powerful Kubernetes management platform built for high-security, large-scale environments. Trusted by the U.S. Air Force ([USAF](#)), the Defense Information Systems Agency ([DISA](#)), the Federal Emergency Management Agency ([FEMA](#)), and other federal agencies, VerteX simplifies complex Kubernetes operations across cloud and on-premise infrastructures.

Through this partnership, ANR delivers integration, deployment, and cybersecurity services—including full authority to operate (ATO) support—tailored to mission-critical needs. Our solution is now featured in a 5-minute, readily awardable pitch video on Platform One.

Watch our awardable five-minute Platform One Solutions Marketplace video on our [YouTube channel](#) to see how we streamline Kubernetes for secure, scalable government operations.

###

About the Platform One (P1) Solutions Marketplace

The P1 Solutions Marketplace is a digital repository of post-competition, 5-minute long readily-awardable pitch videos, which address the Government's greatest requirements in hardware, software and service solutions. [Learn more](#)
